Parkinson's Disease Management: A Travel Throughout the Disease Course

DAY 2: Saturday, June 15, 2024		
TIME	LECTURE	
8:15 - 8:45	MDS Desk Open	
Infusion Therapies and Neuromodulation		
Moderators: Fabienne Ory-Magne and Anna Castrioto		
8:45 - 9:15	Infusion therapies: patients' selection, practical use and perspectives	
	Fabienne Ory-Magne	
9:15 - 9:45	Deep brain stimulation: personalized treatment for advanced Parkinson's disease	
	Anna Castrioto	
9:45 - 10:15	Neuromodulation vs. lesional approaches: how to make choice and what to expect on the	
	long-term	
	Carlo Alberto Artusi	
10:15 - 10:45	Two case presentations with audience polls presented by participants	
	Q&A: with panel discussion (all the faculty)	
10:45 – 11:05	Coffee Break	
Challenges in advanced and late Parkinson's disease treatment and the role of technology		
Moderators: Bas Bloem and Olivier Rascol		
11:05 – 11:25	Rescue therapies – sudden OFF and complex dyskinesia management	
	Olivier Rascol	
11:25 – 11:50	Treatment approaches in late-stage Parkinson's disease	
	Margherita Fabbri	
11:50 - 12:10	Palliative care concepts in Parkinson's disease	
	Joaquim Ferreira	
12:10 - 12:40	Wearable sensors in the management of Parkinson's disease: a pragmatic approach	
	Caroline Moreau	
12:40 - 13:00	Q&A with panel discussion (all the faculty)	
13:00 – 13:15	Conclusions and greetings (a short presentation on MDS benefits for young members and	
	opportunities	
	Bas Bloem and Margherita Fabbri
